

Gotta Dig? Gotta Call 811!

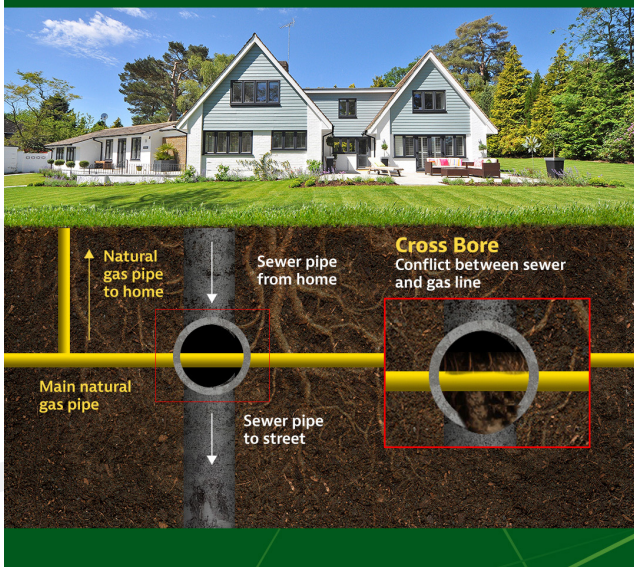

Chattanooga Gas reminds all do-it-yourselfers and professional excavators to contact **811** by phone or online at **Tenn811.com** before starting any digging project. It protects everyone's safety and it's the law!

- Helps decrease the potential damage to underground utilities
- Identifies underground utilities in unexpected locations
- Avoids costly fines from utilities, cities/counties, and the Public Service Commission

What is a **cross bore**?

Cross Bore Safety

- Use the **ACT** Method
 - **Assume** all sewer obstructions outside the building will involve a cross bore.
 - **Contact 811** to have all utility lines marked before you asses or clear an obstruction.
 - **Take** every safety precaution.
- Exercise extreme caution when using power tools to clear an obstruction.
